Interesting facts about Novi Pazar

Archaeological findings indicate that the area has been inhabited since the Stone Age, while some historians claim that in the XVII century, Novi Pazar was bigger and more beautiful than London and Paris. This City of diversity is opulent with historical monuments of Islamic and Christian culture, archaeological sites, and natural resources with abundance of thermal mineral wellheads.

Novi Pazar is often considered as the "Youngest City in Europe" because 49% of population is younger than 35 years.

European Partnership with Municipalities Programme

Warm School for Better Education

The heating plant in Novi Pazar Gymnasium was successfully renovated with the financial support from the European Union and the Government of Switzerland through EU PROGRES worth 91,472 Euros.

Due to malfunctioning of the old heating system, many classes were shortened by 15-20% or completely interrupted in the winter, as the classrooms remained cold. The works included replacement of three boilers of 278kW with the two new ones of 550kW. The old system could not provide the temperature of more than 15 degrees Celsius; the new one easily reaches 24. The heating was provided for the whole school and the gym, as well as for the nearby Elementary School "25. maj". More than 1,900 students and teachers from these two schools enjoy the benefit of having the new heating system.

At the end of the winter, there were savings of approximately 50,000 Euros for the heating oil costs. The City Council adopted a permanent executive decision to grant control over excess funds saved to Gimnazija Board. More importantly, the project contributed to regular education, as the classes didn't have to be shortened.

LIST OF EU PROGRES PROJECTS IN NOVI PAZAR

Good Governance	Municipal Co-funding	EU PROGRES funds	Status
<p>Construction of the Wall in Desanka Maksimović Elementary School The construction of the wall around the playground of the elementary school increased safety of 1,000 pupils, created more space for rehabilitation of at least 20 pupils with disabilities and increased their attendance at classes.
